

ESG Services

ESG Diligence

Fund ESG Diligence - Conducting quality and risk-based assessment of a fund and examining its alignment with our Mission Intent, Alignment and Impact (3M's) and Elimination, Evaluation, Engagement and Execution (4 E's) framework for a fund diligence rating.

ESG Analytics

Carbon & Environmental Analytics - Quantifying emission footprint and carbon intensity as well as key decisions that impact carbon footprint in portfolios or ETF.

ESG Risk & SDG Impact Analytics - Undertaking risk-based assessments to detect ESG controversies and risks, and incorporating SDG frameworks for a quality-based measure of impact.

ESG Process Integration

ESG Process Integration - Identifying gaps in a fund's ESG strategy and assessing key attributes towards ESG alignment using our 3 M's & 4 E's framework including providing ESG Readiness, Feedback and Assessment advice.

ESG Strategic Positioning and Benchmarking - Providing strategic fund positioning advice and benchmarking against global best practise for ESG diligence using our firm-wide analytical tools.
